

Your Care - a New Approach

Your Care - Your Way!

Choose and organise your care team and we'll do the rest!

At HomeCareDirect we're passionate about the personalisation of care, and for 14 years we've been championing the rights of people to have control over their support at home.

HomeCareDirect was established in 2003 because we recognised that people with personal health budgets, direct payments or their own funding had the chance to choose, employ and organise their own personal assistants (PAs) – an opportunity to have full control over their support at home.

However, in order to have this choice and control, people are left with the headache of being their PAs legal employer – with all the responsibilities and risks involved.

HomeCareDirect realised we could remove this headache by helping individuals and families to choose and organise PAs themselves and then employing them on their behalf.

HomeCareDirect then help individuals and families arrange the details of their day-to-day support to suit their own routine - to decide who comes into their home and when, rather than it being decided for them.

PAs can be neighbours, friends, family members (restrictions may apply) or someone found through advertising

and interview. In our experience matching the right PAs with individuals builds a strong and long lasting support team. Therefore, we'll help you find a PA who meets your individual specific needs - ie someone who has the right skills but also the right personality and outlook.

Where there's a training requirement, HomeCareDirect work closely with the individual and family to arrange tailored training for their PAs that matches their specific needs. If you have a personal budget or direct payment, HomeCareDirect can also hold and manage your funding in one of our individually managed bank accounts.

HomeCareDirect recognise that individuals and families are the experts in their own situation, and we involve them at every step, allowing people greater control over the quality of the support they receive.

HomeCareDirect provide a national service and we are proud to be helping hundreds of individuals nationwide to live independently in their own home and direct their own support.

If you'd like to hear more about our services, please give us a call or visit our website.
