

North Wales Together: Seamless Services for people with learning disabilities

Do you want to help us make our website better?

We have a website called Get Checked Out North Wales.

It is all about being healthy.

We want to make annual health checks easier.

The website needs to be better.

<https://getcheckedoutnorthwales.org/>

We would like to work together.

This will make the website better.

This is called Coproduction – it is about people with different ideas coming together.

We can make sure that the website is great.

Would you like to be involved?

We will have to decide:

- Do the documents need to change?
- Will the pages need to change?
- What is missing?
- How can it be better?

If you want to help, you would have to attend a weekly meeting on zoom.

We can help you with zoom.

To be involved in this group email Sian

Sian.croston@flintshire.gov.uk

You can ask someone to help you send an email.
