

North Wales Together: Seamless Services for people with learning disabilities

Do you want to help us plan and run a virtual health screening event?

We are planning an online event

The event will take place in the Autumn

The event will be about **health screening**.

We want more people to be aware of health screening.

We would like to work together with everyone to plan and deliver this event.

This is called Coproduction – it is about people with different views and ideas coming together.

We can make sure these events are great by listening to everyone.

Would you like to be involved?

We will have to decide:

- When to do it?
- Who will be there?
- What information will we need?
- Who will talk at the event?

If you want to help, you would have to attend two planning meetings.

These will be in zoom.

We can help you to use zoom.

You would also need to help us run the events on the day.

To be involved in this group email Sian

Sian.croston@flintshire.gov.uk

You can ask someone to help you send an email.
